Is the property located within a historic district? ☒ no ☐ yes Name of district: \_\_\_\_\_

Is district listed? ☐ no ☐ yes Determined eligible? ☐ no ☐ yes District Inventory Number: \_\_\_\_\_

Documentation on the property/district is presented in:

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

The Bosley Property, constructed in 1940, is a 1-story, 3-bay, front-gabled residence on the east side of Campground Road, south of Simpson Avenue. The house lacks architectural significance. The building is constructed of stucco concrete block with an asphalt shingle roof and gables clad in aluminum siding. With the exception of a 3-part picture window, the windows are wood 3/1 double-hung sash. The three front elevation bays have aluminum awnings. The center bay has metal supports beneath its awning and cement stairs, forming a covered stoop. A 1-story, 2-bay, frame, shed-roof addition is attached to the rear elevation. A frame, shed-roof garage is located immediately east of this addition, with a metal overhead door in its south elevation.

The Bosley Property is not eligible for the National Register of Historic Places due to a lack of architectural significance. This property does not represent a historic event or trend that made a significant contribution to the development of the nation, state, or local community, and therefore is not eligible under Criterion A. Historic research also indicates that the property has no association with persons who have made specific contributions to history, and consequently, it does not meet Criterion B. The Bosley Property is an indistinctive example of a common building type found throughout suburban areas and is therefore ineligible under Criterion C. Finally, investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore, National Register Criterion D cannot be evaluated at this time.
